

Education for All Working Group

Education for All Working Group: The Report

Primary & Secondary
Education

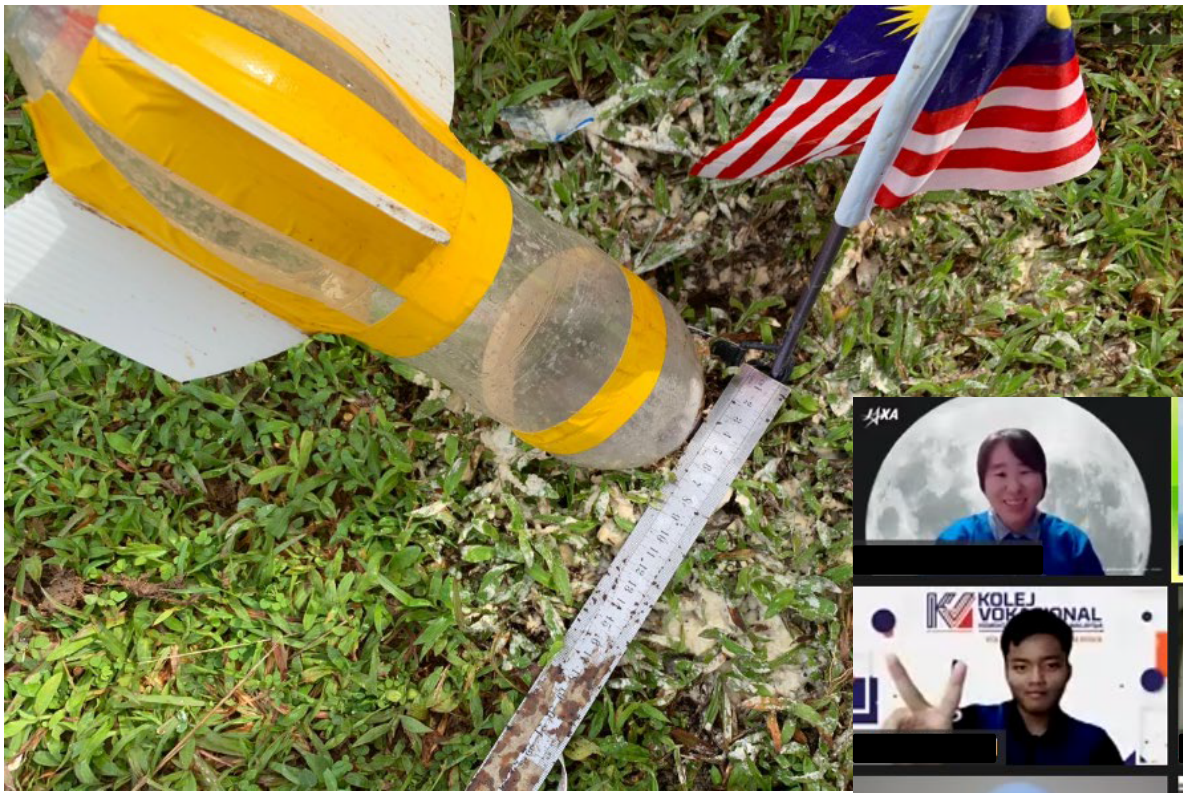

Regional Space Education
Congress

Higher Education

- Presentations– More than case studiesSome panels shared problems and challenges.
- Resources are limited so that the key is to increase the efficiency. What can we do more?
- Created a great basis for communication
- Regional Space Education Congress→ more than governmental involvements, policies were shaped by everyone
→ generation changes
- Time is ripe for the new education programmes
→ education dealing with global issues & sustainability
→ a long-term plans on building the lineage of knowledge
